If your bank is Okinawa Ginko (沖縄銀行)

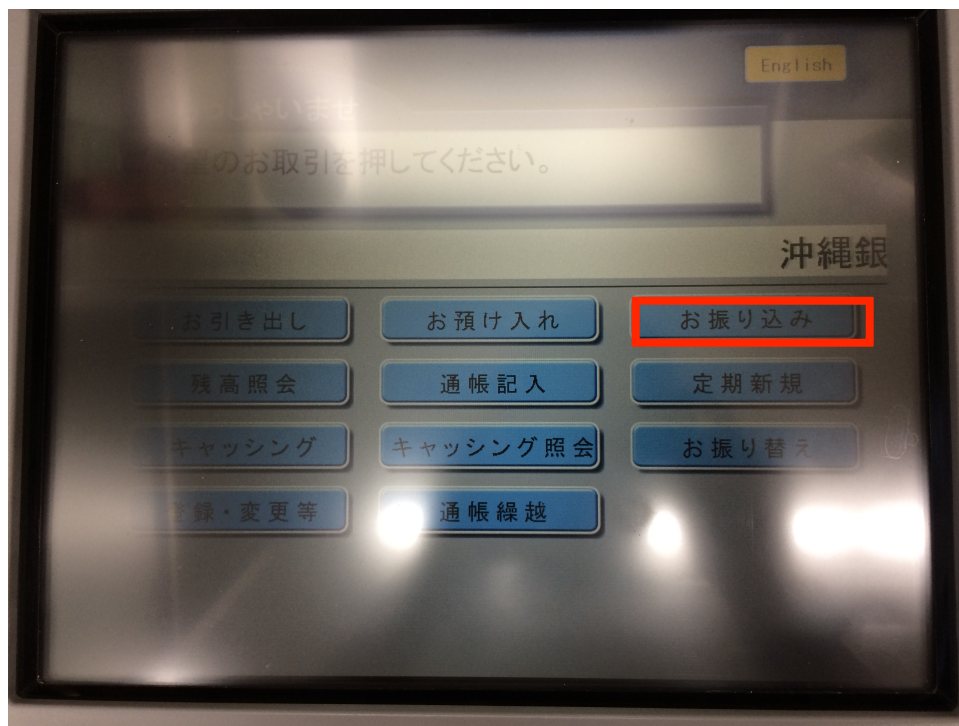

### **Account Info:**

- Ryukyu Ginko (琉球銀行)

The following is the directions for the new ATM interface. If you are using the old interface, please match the corresponding katakana and kanji. The steps are the same, just a different layout.

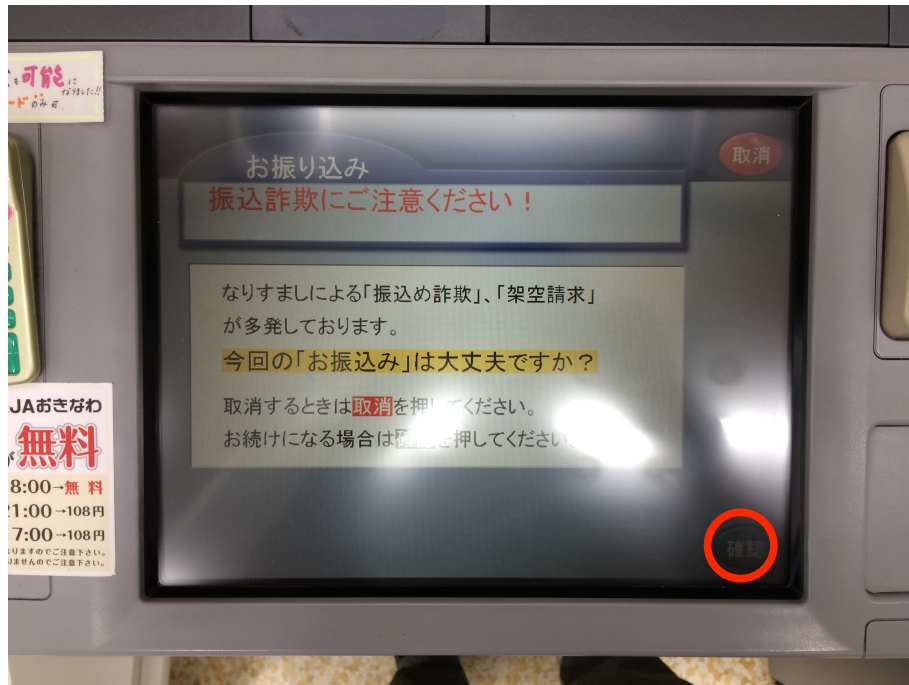

### **Step 1:**

This is the main screen. Select the *ofurikomi* (お振り込み) option at the top of the rightmost column.

### Step 2:

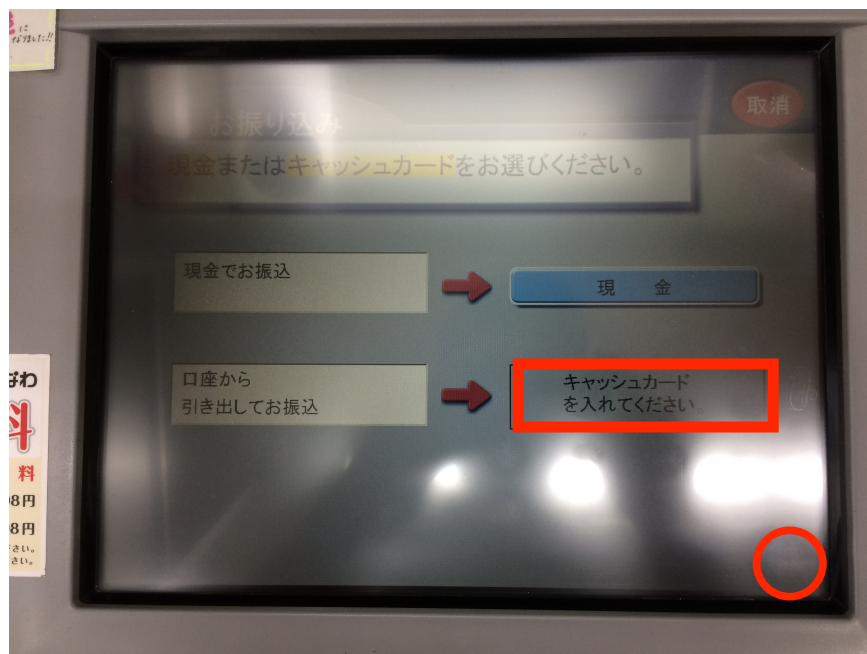

This is just a “do you want to continue” screen. Press the green button at the bottom right.

### Step 3:

This screen gives you the option of choosing to pay by cash (top option) or by cash card (bottom option). Please insert your cash card at this time and press the green button if necessary. Do not press the blue cash option.

In the old interface, the order is reversed and you must press キャッシュカード before inserting your card.

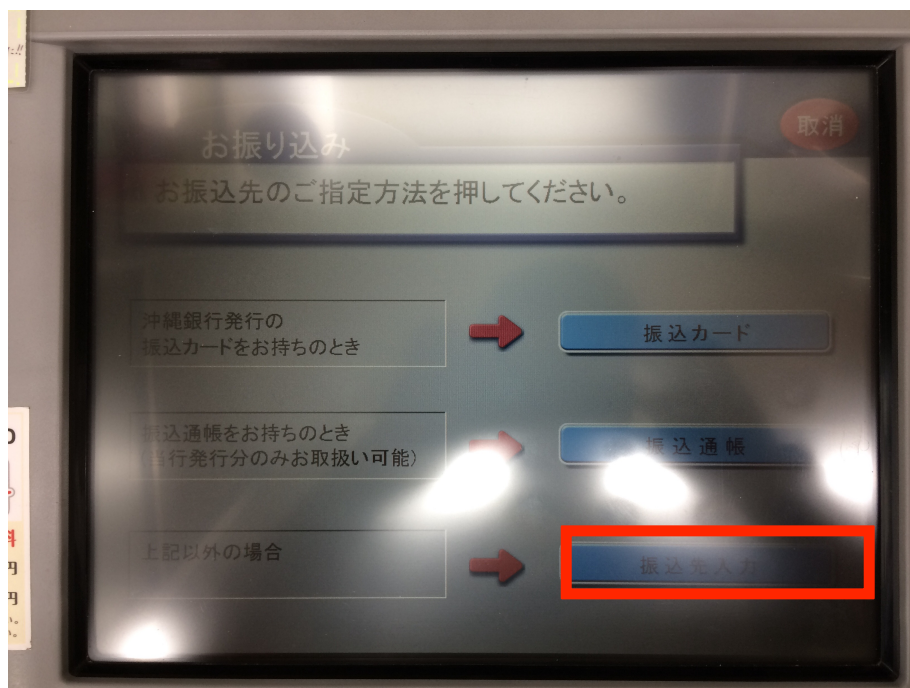

**Step 4:**

Enter your pin.

**Step 5:**

This is the “choose your method” screen. Choose the bottom option, Input Recipient Info, *furikomisakinyuryoku* (振込先入力).

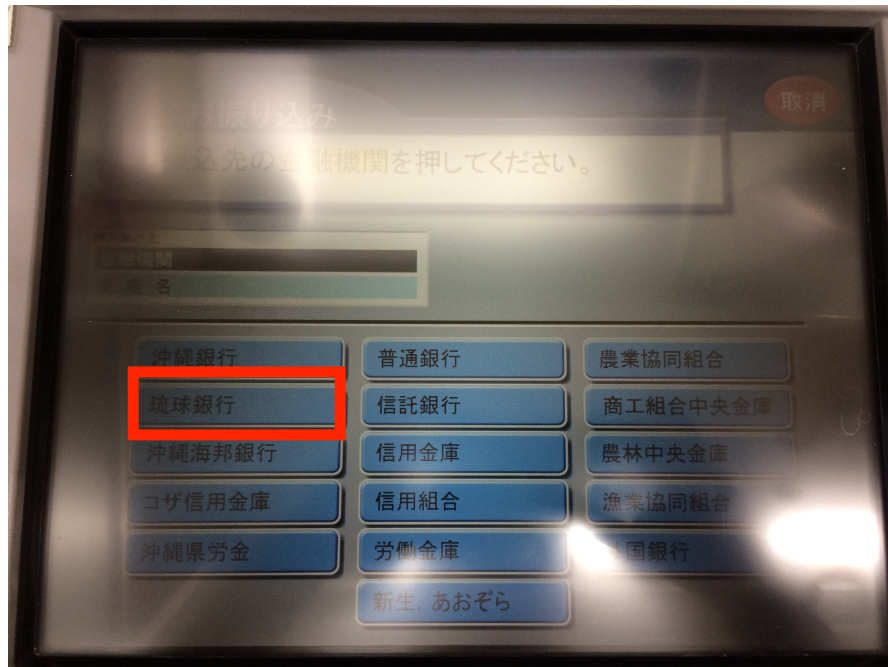

**Step 6:**

Choose the recipient's bank. Ryukyu Ginko (琉球銀行) is second from the top in the leftmost column.

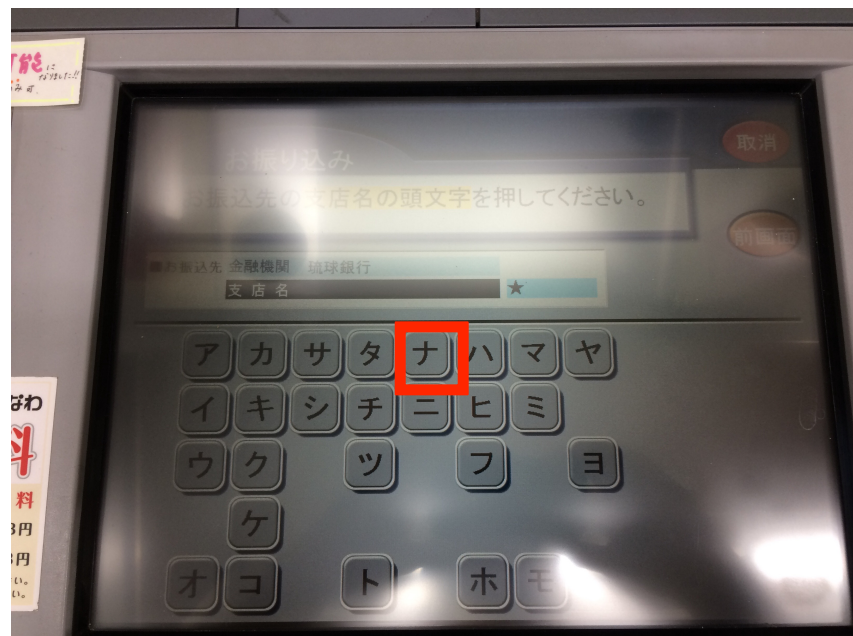

In the old interface, Ryukyu Ginko (琉球銀行) is located in a different position.

**Step 7:**

This is the “find recipient’s branch” screen. Choose *na* (ナ), for *Nakijin*.

In the old interface, the letters are in a different order. Please look for ナ.

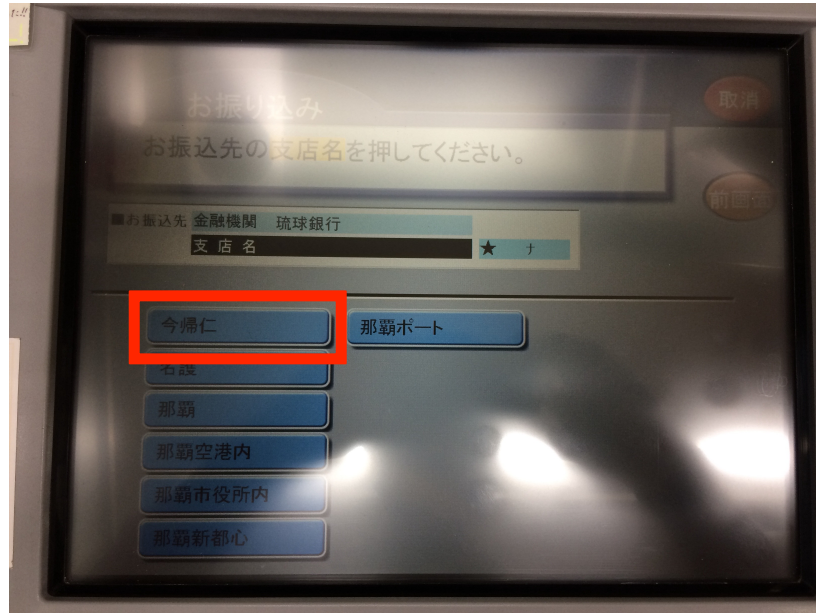

**Step 8:**

“Find recipient’s branch” part two. Select *Nakijin* (今帰仁) at the top of the left column.

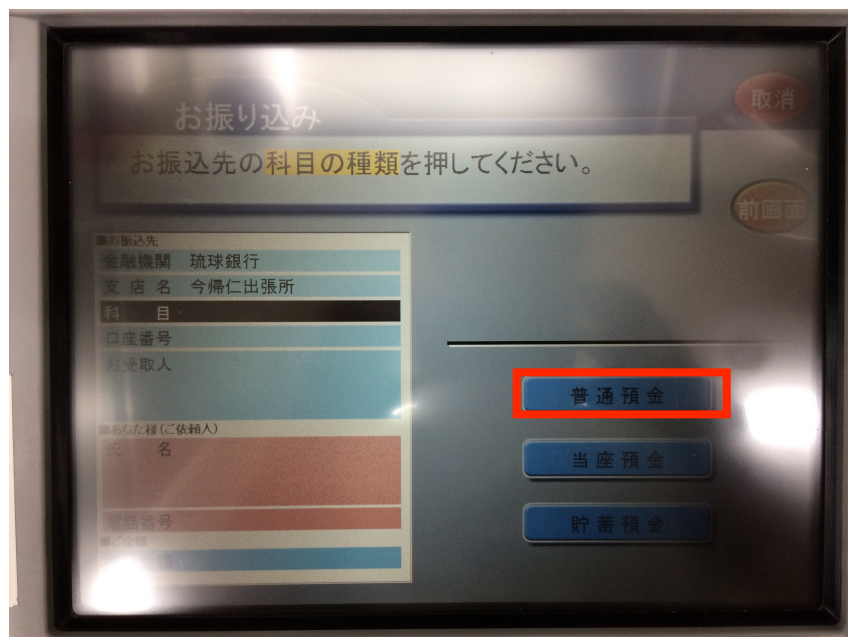

In the old interface, *Nakijin* is in a different position and there are a couple characters after 今帰仁.

**Step 9:**

“Bank account type”. Choose the top option, Regular Account, *futsuuyokin* (普通預金).

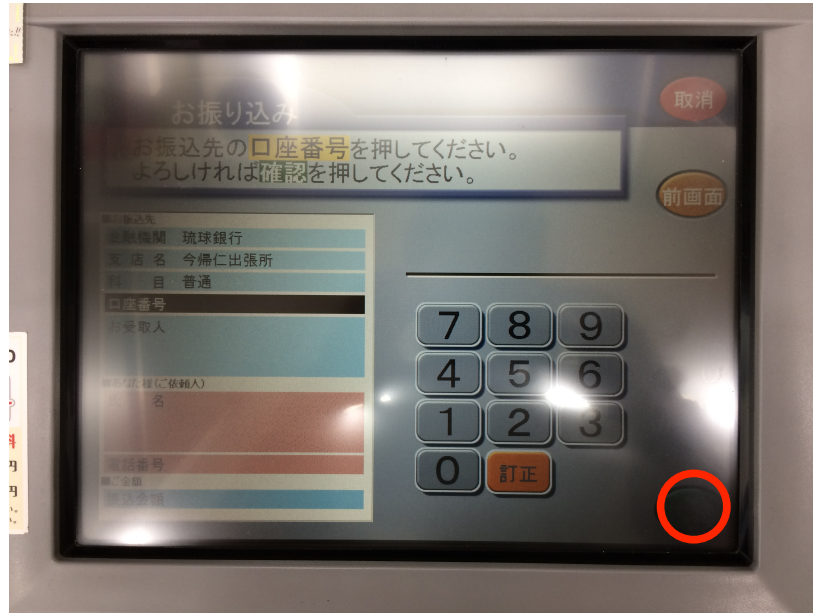

In the old interface, the options may be in a different order.

**Step 14:**

You are officially done and should receive a receipt by this point. At this screen, can opt to receive a *furikomi* card for this account to use in the future. Not necessary, so I'd recommend just selecting the bottom option.
